Status of Construction: In progress

Start Date: Summer 2010 (7/10)

Completion Date: Summer 2011 (7/2011)

Progress Facts:

- Major electrical distribution, telephone, and cable utilities coordination were required to meet the new road configuration.
- The Roadway required the collaboration, permitting, and inspection of three different jurisdictions including the Florida Department of Transportation.
- Del Prado Boulevard currently services 19,000 vehicles per day. At completion, the roadway will accommodate 49,000 vehicles per day.
- The project has received a statewide award for the completed bridges.
- This project has an anticipated completion date of summer 2011 (07/11).
